It only allows you to record off your iTunes library Djay Pro is pretty good, but it does have.. The app is built from the ground up to work perfectly with Windows 10, meaning rock-solid stability..

I hit log in to Spotify on the dJAY app, which switched me over to my browser. I've had one kicking around in my gig bag for Solved: I'm trying to connect dJAY on my iPad to Spotify.

Pre-cueing does not work with my MIDI controller What should I do? How can I use my iTunes library with dJAY Pro for Windows? Where does dJAY Pro store cue points and other metadata? How can I import cue points from another dJAY Pro installation? How do I bridge dJAY to work with ASIO powered controllers? Anyone use Djay Pro? The Spotify integration is kind of insane.. Mar 09, 2014 Your Questions: Why Won't My DJ Splitter Cable Work? Phil Morse March 9, 2014 Read time: 3 mins.. Tempted to unlock the demo but want some long term thoughts Only downside to make note of is if you are using Spotify songs in a mix for recording they will not work.. Or simply don't currently have, a pro DJ audio interface (or a controller with one built in), an audio splitter cable is a great way to get going, or a sensible backup to have too.
